ST. JOHN'S MEDICAL COLLEGE

BANGALORE - 560 034

I AIMS AND OBJECTIVES

Note: Considerable care has been taken to make the provisions of this prospectus precise and comprehensive. The Collage shall not enter into any correspondence or personal discussions with candidates for admission, or with their parents or guardians, regarding these provisions, or any action, taken by the college at any stage.

INTRODUCTION : The Catholic Church in India has always played an important role in the fields of education, health care, social welfare and development of the community. The Catholic Bishops' Conference of India (CBCI) in response to a felt need decided to establish a Medical College and Teaching Hospital 'to provide for the relief of suffering, to promote and preserve the health of the community and to give an example of enlightened training in dedicated service, which is characteristic of Christian educational and social welfare institutions.' St. John's Medical College, Hospital and School of Nursing were started in 1963, 1975 and 1980 respectively at Bangalore by the C.B.C.I. Society for Medical Education. The School of Nursing was upgraded to the College of Nursing in 1989. In 1994 all the Institutions were brought under the common name: St. John's National Academy of health Sciences.

AIMS : While the Institution is intended primarily for training Catholics and especially dedicated personnel like Religious Sisters who are engaged in large number of hospitals and dispensaries mainly in medically under served and rural areas of our country. it is open, like all other educational institutions under Catholic auspices, to all persons irrespective of religion, caste or community.

The Institution seeks to make a qualitative contribution to health care, medical education and research through the training of medical, paramedical, nursing, health management, community health workers, and other personnel who are dedicated to healing in the spirit of Christ.

The College Hospital is intended to assist in the training and to render service in health care to all people irrespective of religion, caste or community, particularly the underprivileged and disadvantaged.

OBJECTIVES: Under the overall policy of the CBCI Society for Medical Education, the objectives of the Institution are grouped as follows:

1. Excellence in all fields of health care education.
2. Adequate Christian formation of the students.
3. Upholding respect for life, from the moment of conception to its natural end.
4. A genuine feeling of compassion for the patients and their families as persons.
5. A special thrust to Community Health fostering the dimensions of participatory team work.
6. Serving the health needs of medically underserved areas of our country and our medically underprivileged brethren.
7. Acquiring the ability to research, and application of the advances in scientific knowledge to the relevant fields of work.
8. Striving towards promoting holistic health.
9. Acquiring an exemplary steadfastness to principles and moral values so as to witnesses to a life of honesty and integrity.

Right from its inception St. John's set before it an ideal of excellence in academics as well as service to society. It has truly become holistic both in its outlook and in its approach to the problems of community health.

This Institution of Health and Healing envisages also the training and participation of the community - including the rural people and the slum dwellers - in health care in its preventive, promotive and rehabilitative aspects.

The Institution expects its students to uphold the ethical values and principles of morality as interpreted by the Catholic Church. The prospective student has the freedom to choose or reject these, but the choice is made before enrollment.

The Institution prepares students for the role of future leaders, loyal to the highest ideals of the health profession. Today's Doctors, Nurses and other Health Care Professionals are part of a team who deliver comprehensive health care. Often they are called upon to be leaders in society helping in all developmental activities. Health is both a means and an end of development improving the quality of life. The students in medical and health care sciences, therefore, should be conscious of social, economic and other factors, the improvement of which will bring about the necessary transformation to make it possible for all in this country and in the world to lead a healthy human existence.

II. HISTORY

The Catholic Church in India had long felt the need of adding a Medical College to the many educational and social welfare institutions through which, over the years, it has served the country. However, the complexities such a venture involved, delayed its active consideration until the proposal was pursued by the Catholic Bishops' Conference of India. At the request of the C.B.C.I., the late Archbishop of Madras, the Most Rev. Louis Mathias, SDB, prepared and presented a report in 1954, in which he reviewed the total requirement of the project. In 1956, Archbishop Mathias, with the aid of medical and financial experts, submitted a comprehensive scheme to the Conference and in September 1960, the C.B.C.I. took the decision to establish a Medical College, with an attached hospital at Bangalore.

His Holiness Pope John XXIII agreed to the College being called after his Patron, St. John the Baptist, as a mark of his personal interest in the project, and of his approval of its aims and ideals. The College was, accordingly, named "St. John's Medical College" and opened in temporary premises at Bangalore in July 1963.

In the course of their Joint Pastoral issued in connection with the XXXVIII International Eucharistic Congress, held in Bombay in 1964, the Catholic Bishops of India announced their choice of the College Project as the Chief Memorial of the Congress. This choice received the warm approval

of his holiness, Pope Paul VI, which was conveyed to him in a special message addressed by His Eminence, Valerian Cardinal Gracias, the then President of the Catholic Bishops' Conference of India and President of the CBCI Society for Medical Education. His Holiness also established a scholarship in the College in his own name, to be awarded, each year, to the best all-round student completing the MBBS course.

The Corner Stone of the Project was blessed by His holiness Pope Paul VI, at Bombay during the principal function of the Eucharistic Congress, held on December 3, 1964, at which he officiated. It was laid at the Project site on July 27, 1965 by His Excellency Shri V.V. Giri, the then Governor of Karnataka, and later, President of India. On the completion of the buildings, the College was dedicated to the cause of Medical Education, Research and Care, on September 29, 1968, at a ceremony presided over by the late President of India, His Excellency, Dr Zakir Hussain.

Prior to the completion of these buildings, the College was located in the premises of St. Mary's Industrial School and Orphanage, which were made available by His Grace Archbishop Thomas Pothacamury of Bangalore for the teaching of pre-clinical and para-clinical subjects.

St. Martha's Hospital operated by the Sisters of the Good Shepherd Congregation was affiliated to the College for Clinical Teaching. The Hospital was extended and suitably equipped for the purpose. This hospital provided a practical example of the spirit of service and sacrifice, which the College strives to make its own and carry beyond itself, to the homes of the patients and the community, both in the urban and in the rural areas. The affiliation of this Hospital to the College has been discontinued from 1983.

Campus: In June 1968, five years after its establishment, the College moved to its permanent campus on a 140 acre site situated in the periphery of the city of Bangalore. During the first phase of construction, the teaching centre (housing the pre-clinical and para-clinical departments and lecture theatres); four blocks of students' hostel; and some residences for the teaching staff were completed.

St. John's Medical College Hospital: The construction work of the second phase consisting of an 800-bed hospital, Nurses' hostel and residences for Staff was started in April 1971. The out-patient was opened

on December 8, 1975. Thereafter, the in-patient departments were opened in phases. With the third phase of construction completed in 1987, the campus has all the required facilities including a beautiful auditorium, with 1100 seats, from 1996, as a memorial of the Silver Jubilee of this Institution. At present St. John's Medical College Hospital has 1350 in — patient beds, distributed among the Departments of General Medicine, Endocrinology, General Surgery, Surgical Oncology, Obstetric and Gynaecology, Gynaecologic Oncology, Paediatrics, Paediatric Surgery, Radiology, Psychiatry, Thoracic Surgery, Dental Surgery, Plastic Surgery, Ophthalmology, Dermatology, Venerology and Leprology, Genito-Urinary Surgery, ENT, Nephrology, Orthopaedics, Coronary Care Unit, Cardiology, Neurology, Neuro Surgery, Gastroenterology, Emergency Medicine, Anaesthesiology, Physical Medicine & Rehabilitation, Pain and Palliative Care, Pulmonary medicine Neonatology, Transfusion Medicine, Geriatric Medicine and Critical care Medicine. This is the teaching Hospital of the College.

The *College of Nursing* is situated in the College & Hospital Sector. Started as a School of Nursing on July 1, 1980, it was raised to the status of a College of Nursing on September 25, 1989 and conducts courses in General Nursing & Midwifery, Basic B.Sc., Post Certificate B.Sc. and M.Sc. in Nursing Courses in Medical, Surgical, Community Health, Paediatrics, Obst. and Gynae. and Psychiatry.

In December 1994, the Institution was re-named as ST. JOHN'S NATIONAL ACADEMY OF HEALTH SCIENCES and five Institutes placed under it:

- 1) St. John's Medical College;
- 2) St. John's College of Nursing;
- 3) St. John's Institute of Hospital Administration and Allied Health Sciences
- 4) St. John's Medical College Hospital;
- 5) St. John's Research Institute;

In the Subsequent years a number of Super Speciality courses (DM & M.Ch) were introduced in the teaching hospital. As of now, we have the following Super Speciality Departments: Cardiology/ Cardio Thoracic Surgery / Critical Care Medicine / Endocrinology/ Gastroenterology/

Gynaecologic Oncology/ Medical Oncology/ Neonatology/ Nephrology/ Neurology/Neurosurgery/Paediatric Surgery/ Plastic Surgery, Reconstructive Surgery Burns/Pulmonary Medicine/Radiation Oncology/Surgical Oncology and Urology.

The Bruhat Bengaluru Mahanagara Palike honoured St. John's Medical College Hospital with Kempe Gowda Award - 2014 in recognition for its contribution to Health Care given in the Metropolitan City.

In the year 2015, the Times of India honoured St. John's Medical College & Hospital with the best Multi Speciality Hospital Award in India.

The Academy started Post Graduate Course in Hospital Administration (MHA) in the year 2015 with an intake of 30 seats.

The Medical College celebrated its Golden Jubilee during the year 2013-2014 and it was proposed to create necessary infrastructure in the Medical College to increase the intake of MBBS admissions from 60 seats to 150 seats. A Golden Jubilee Block was constructed attached to the existing Medical College Building with all infrastructures as per the requirements of Medical Council of India and the first batch of 150 students are enrolled in the year 2016.

III. PROCEDURE OF MBBS APPLICATION, AND COUNSELLING FOR ADMISSION TO ST. JOHN'S MEDICAL COLLEGE, BANGALORE FOR 2017-2018

A. General Information

1. St Johns Medical College is an All India, Private, Unaided, Religious Minority Educational Institution established and administered by the Catholic Bishop's Conference of India (CBCI).
2. The Institution is intended primarily for the medical education and training of the members of the Roman Catholic Christian Community, especially personnel like Religious Sisters (Nuns), who are committed to serving in hospitals and community health centres in medically underserved areas across India. However, like all other educational institution run by the Roman Catholic Community, it is open also to all persons, irrespective of religion, caste or community.

3. St. John's Medical College is affiliated to the Rajiv Gandhi University of Health Sciences, Karnataka (RGUHS) and recognised by the Medical Council of India (MCI).
4. In keeping with the mission of the Institution "to train healthcare personnel to serve in the medically underserved areas of the country," MBBS candidates, are required, as a condition for admission, to execute a bond to serve for two years in one of the designated hospitals or health centres in a medically underserved area of the country. Those who fail to fulfil the rural bond commitment will have to pay the penalty as stipulated by the Governing Board.
5. **As per the Government of India policy, Counselling for admission to MBBS course for the academic year 2017-2018 to St. John's Medical College will be done by the Karnataka Examination Authority (KEA).** For information on registration, verification of documents and other counselling formalities, kindly refer to the KEA website (<http://kea.kar.nic.in>).
6. A total of 150 students will be admitted to the MBBS course for the academic year 2017-18, of which 149 will be allotted through Centralised Counselling by the Karnataka Examination Authority (KEA). One seat will be nominated by the Central Govt. of India.
7. Admissions to St. John's Medical College are subject to applicable regulations by the University/Government/Medical Council of India.
8. The admission process outlined here shall be subject to any judicial order that may be passed on MBBS admissions or any other statutory enactments that may be passed by the Central or State government from time to time.

B. Medical Council of India (MCI) Eligibility Criteria for MBBS Admissions

No Candidate shall be allowed to be admitted to the Medical Curriculum proper of Bachelor of Medicine and Bachelor of Surgery (MBBS) Course until:

1. He/she shall complete 17 years of age on or before 31st December of the year of admission to the MBBS Course.

1. To be eligible for admission to MBBS course, a candidate must have passed in the subjects of Physics, Chemistry, Biology/Biotechnology and English individually and must have obtained a minimum of 50% marks taken together in Physics, Chemistry and Biology/Bio-technology at the final examination of the Pre University Course or its equivalent. In respect of candidates belonging to Scheduled Castes, Scheduled Tribes or Other Backward Classes the minimum marks obtained in Physics, Chemistry and Biology/Bio-technology taken together in the qualifying examination shall be 40% instead of 50%.
2. In addition, the candidate must have come in the merit list of National Eligibility-cum-Entrance Test UG - 2017 (NEET (UG)-2017) for admission to MBBS course conducted by the Central Board of Secondary Education as per the criteria laid down by the Government of India.

During this phase teaching of para-clinical and clinical subjects shall be done concurrently.

The para-clinical subjects shall consist of Pathology, Pharmacology, Microbiology, Forensic Medicine including Toxicology and part of Community Medicine.

The clinical subjects shall consist of all those detailed below in Phase III.

Out of the time for Para-clinical teaching, approximately equal time be allotted to Pathology, Pharmacology, Microbiology and Forensic Medicine and Community Medicine combined (1/3 Forensic Medicine and 2/3 Community Medicine).

(c) **Phase-III** (Continuation of study of clinical subjects for seven semesters after passing Phase-I)

The clinical subjects to be taught during Phase II and III are Medicine and its allied specialities, Surgery and its allied specialities, Obstetrics and Gynaecology and Community Medicine.

Besides clinical posting as per schedule mentioned herewith, rest of teaching hours be divided for didactic lectures, demonstrations, seminars, group discussions, etc. in various subjects.

The Medicine and its allied specialities training will include General Medicine, Paediatrics, Tuberculosis and Chest, Skin and Sexually Transmitted Diseases, Psychiatry, Radio-diagnosis, Infectious diseases etc. The Surgery and its allied specialities training will include General Surgery, Orthopaedic Surgery including Physiotherapy and Rehabilitation, Ophthalmology, Otorhinolaryngology, Anaesthesia, Dentistry, Radiotherapy etc. The Obstetrics and Gynaecology training will include family medicine, family welfare planning etc.

(3) The first two semesters (approximately 240 teaching days) shall be occupied in the Phase I (Pre-clinical) subjects and introduction to a broader understanding of the perspectives of medical education leading to delivery of health care. No student shall be permitted to join the Phase II (Para-clinical/clinical) group of subjects until he /she has passed in all the Phase I (Pre-clinical) subjects for which he will be permitted not more than four chances (actual examination), provided four chances are completed in three years from the date of enrollment.

(4) After passing pre-clinical subjects, 1½ years (3 semesters) shall be devoted to para-clinical subjects.

Phase II will be devoted to para-clinical and clinical subjects, along with clinical postings. During clinical phase (Phase III) pre-clinical and

para-clinical teaching will be integrated into the teaching of clinical subjects where relevant.

(5) Didactic lectures should not exceed one third of the time schedule; two third schedule should include practicals, clinicals or/and group discussions. Learning process should include living experiences, problem oriented approach, case studies and community health care activities.

(6) Universities shall organize admission timings and admission process in such a way that teaching in first semester starts by 1st of August.

(7) Supplementary examination may be conducted within 6 months so that the students who pass can join the main batch and the failed students will have to appear in the subsequent year.

(8) Phase distribution and Timing of Examinations:-

	6 Months	6 Months	6 Months	
I MBBS	1 TERM	2 TERM		1st professional examination (during second semester)
II MBBS	3 TERM	4 TERM	5 TERM	IIInd professional examination (during fifth semester)

Note :

- a) Passing in 1st Professional is compulsory before proceeding to Phase II training
- b) A student who fails in the IIInd professional examination, shall not be allowed to appear in IIIrd Professional Part I examination unless he passes all subjects of IIInd Professional examination.
- c) Passing in IIIrd Professional (Part I) examination is not compulsory before entering for 8th and 9th semester training, however passing

of IIIrd Professional (Part I) is compulsory for being eligible for IIIrd Professional (Part II) examination.

During third to ninth semesters, clinical postings of three hours duration daily as specified in the Table below is suggested for various departments, after Introductory Course in Clinical Methods in Medicine and Surgery of two weeks each for the whole class.

(9) EXAMINATION REGULATIONS

Essentials for qualifying to appear in professional examinations.

The performance in essential components of training is to be assessed, based on:

(10) ATTENDANCE

Every candidate should have attendance not less than 75% of the total classes conducted in theory, practical and clinical jointly in each calendar year calculated from the date of commencement of the terms to the last working day as notified by the University in each of the subjects prescribed to be eligible to appear for the university examination (vide Medical Council of India Notification on Graduate Medical Education (Amendment) Regulations 2003, published in the Gazette of India Part III, Section 4, Extraordinary issued on 15th October 2003).

A candidate lacking in the prescribed attendance and progress in any subject(s) in theory or practical/clinical in the first appearance will not be permitted to appear for the examination in that subject(s).

(11) INTERNAL ASSESSMENT

- (i) It shall be based on day-to-day assessment (see Note), evaluation of student assignment, preparation for seminar, clinical case presentation etc;
- (ii) Regular periodical examinations shall be conducted throughout the course. The question of number of examinations is left to the institution;
- (iii) Day-to-day records should be given importance during internal assessment;

- (iv) Weightage for the internal assessment shall be 20% of the total marks in each subject;
- (v) Student must secure at least 50% marks of the total marks fixed for internal assessment in a particular subject in order to be eligible to appear in final university examination of that subject.

Note:

Internal assessment shall relate to different ways in which students participation in learning process during semesters is evaluated. Some examples are as follows:

- (i) Preparation of subject for students seminar.
- (ii) Preparation of a clinical case for discussion.
- (iii) Clinical case study/problem solving exercise.
- (iv) Participation in project for health care in the community (planning stage to evaluation).
- (v) Proficiency in carrying out a practical or a skill in small research project.
- (vi) Multiple choice questions (MCQ) test after completion of a system/teaching.

Each item tested shall be objectively assessed and recorded. Some of the items can be assigned as Home work/Vacation work.

(12) UNIVERSITY EXAMINATIONS

Theory papers will be prepared by the examiners as prescribed. Nature of questions will be short answer type/objective type and marks for each part indicated separately.

Practicals/clinicals will be conducted in the laboratories or hospital wards. Objective will be to assess proficiency in skills, conduct of experiment, interpretation of data and logical conclusion. Clinical cases should preferably include common diseases not esoteric syndromes or rare disorders. Emphasis should be on candidate's capability in eliciting physical signs and their interpretation.

Viva/oral includes evaluation of management approach and handling of emergencies. Candidate's skill in interpretation of common investigative data, x-rays, identification of specimens, ECG, etc. also is to be evaluated.

The examinations are to be designed with a view to ascertain whether the candidate has acquired the necessary knowledge, minimum skills alongwith clear concepts of the fundamentals which are necessary for him to carry out his professional day-to-day work competently. Evaluation will be carried out on an objective basis.

Question papers should preferably be of short structure/objective type.

Clinical cases/practicals shall take into account common diseases which the student is likely to come in contact in practice. Rare cases/ obscure syndromes, long cases of neurology shall not be put for final examination.

There shall be one main examination in a year and a supplementary to be held not later than 6 months after the publication of its results. University Examinations shall be held as under:-

First Professional - In the second semester of Phase I training, in the subjects of Anatomy, Physiology and Bio-Chemistry.

Second Professional - In the Fifth Semester of Phase II training, in the subjects of Pathology, Microbiology, Pharmacology and Forensic Medicine.

Third Professional - Part I - In the Seventh Semester of Phase III, in the subjects of Ophthalmology, Otorhinolaryngology and Community Medicine.
