ST. JOHN’S NATIONAL ACADEMY OF HEALTH SCIENCES

(ANTHEM)

Ch:

St. John’s! with pride my song resounds; I hail thy pennant blue, gold, white.
St. John’s! thy spirit in me bounds;
Be thou my guide my beacon light.

1. There stirs thy call within my heart
   In thee this pledge I seal:
   To raise the ill shall be my part,
   To minister, to heal.
   With ev’ry moment born in time,
   Through deep eternity,
   Thy vision will endure, sublime:
   HE SHALL LIVE BECAUSE OF ME.

2. Sustained within God’s grace I stand;
   Thy yoke, so light, I bear:
   Where’er I toil, love guide my hand,
   Inspire my promised care.
   Love stoke my hopes, my fears belie;
   Love set my courage free;
   While yet my lips have breath to sigh:
   HE SHALL LIVE BECAUSE OF ME.

3. Through India’s far flung rustic lands,
   Where need is most, I serve;
   No bounds restrain my willing hands,
   No efforts I reserve.
   And on thy campus, high or low,
   Where’er my calling be,
   In thee my solemn oath shall grow:
   HE SHALL LIVE BECAUSE OF ME.
The EMBLEM of this Institution portrays a man lying with sickness being helped to rise, and given renewed life by Christ, who is signified by the Cross, on which He died, and which is a symbol of love.

The motto of the emblem, HE SHALL LIVE BECAUSE OF ME, links this Institution with the XXXVIII International Eucharistic Congress held in Bombay in December 1964, of which it is the Chief Memorial. The motto is a constant reminder to our Staff and Students that they are God's collaborators in their care of human lives.

The colour scheme: The cross is WHITE, signifying purity of spirit; the body of the man lying down is BLUE, signifying aspiration towards heavenly things; and the background is GOLD or YELLOW, signifying the flame of knowledge.

I. AIMS AND OBJECTIVES

Note: Considerable care has been taken to make the provisions of this Prospectus precise and comprehensive. The information is not exhaustive.

INTRODUCTION: The Catholic Church in India has always played an important role in the fields of education, health care, social welfare and development of the community. The Catholic Bishops' Conference of India (CBCI) in response to a felt need decided to establish a Medical College and Teaching Hospital “to provide for the relief of suffering, to promote and preserve the health of the community and to give an example of enlightened training in dedicated service, which is characteristic of Christian educational and social welfare institutions”. St. John’s Medical College and Hospital and School of Nursing were started in 1963, 1975 and 1980 respectively at Bangalore by the C.B.C.I. Society for Medical Education. The School of Nursing was upgraded to the College of Nursing in 1989. In 1994 all the Institutions were brought together as the St. John's National Academy of Health Sciences.

AIMS: While the Institution is intended primarily for training Catholics and especially dedicated personnel like Religious Sisters who are running a large number of hospitals and dispensaries mainly in medically underserved and rural areas of our country, it is open, like all other educational institutions under Catholic auspices, to all persons irrespective of religion, caste or community.

The Institution seeks to make a qualitative contribution to health care, medical education and research through the training of medical, paramedical, nursing, health management, community health workers, and other personnel who are dedicated to healing in the spirit of Christ.
The College Hospital is intended to assist in the training and to render service in health care to all people irrespective of religion, caste or community, particularly the underprivileged and disadvantaged.

OBJECTIVES: Under the overall policy of the CBCI Society for Medical Education, the objectives of the Institution are grouped as follows:

1. Excellence in all fields of health care education.
2. Adequate Christian formation of the students.
3. Upholding respect for life, from the moment of conception to its natural end.
4. A genuine feeling of compassion for the patients and their families as persons.
5. A special thrust to Community Health fostering the dimensions of participatory team work.
6. Serving the health needs of medically underserved areas of our country and our medically underprivileged brethren.
7. Acquiring the ability to research, and application of the advances in scientific knowledge to the relevant fields of work.
8. Striving towards promoting holistic health.
9. Acquiring an exemplary steadfastness to principles and moral values so as to witness to a life of honesty and integrity.

Right from its inception St. John’s set before it an ideal of excellence in academic courses as well as service to society, as a result of which it has truly become holistic both in its outlook and in its approach to the problems of community health.

This Institution of Health and Healing envisages also the training and participation of the community (including the rural people and the slum dwellers) in health care in its preventive, promotive and rehabilitative aspects.

The Institution expects its students to uphold the ethical values and principles of morality as interpreted by the Catholic Church. The prospective student has the freedom to choose or reject these, but the choice is made before enrollment.

The Institution prepares students for the role of future leaders, loyal to the highest ideals of the health profession. Today’s Doctors, Nurses and other Health Care Professionals are part of a team who deliver comprehensive health care.

Often they are called to be leaders in society helping in all developmental activities. Health is both a means and an end of development, improving the quality of life. The students in medical and health care sciences, therefore, should be conscious of social, economic and other factors, the improvement of which will bring about the necessary transformation to make it possible for all in this country and in the world to lead a healthy human existence.

II. HISTORY

The Catholic Church in India had long felt the need of adding a Medical College to the many educational and social welfare institutions through which, over the years, it has served the country. However, the complexities such a venture involved, delayed its active consideration until the proposal was pursued by the Catholic Bishops’ Conference of India. At the request of the C.B.C.I., the late Archbishop of Madras, the Most Rev. Louis Mathias, SDB, prepared and presented a report in 1954, in which he reviewed the total requirement of the project. In 1956, Archbishop Mathias with the aid of medical and financial experts, submitted a comprehensive scheme to the Conference and in September 1960, the C.B.C.I. took the decision to establish a Medical College, with an attached hospital at Bangalore.

His Holiness Pope John XXIII agreed to the College being called after his Patron, St. John the Baptist, as a mark of his personal interest in the project, and of his approval of its aims and ideals. The College was, accordingly, named “St. John’s Medical College” and opened in temporary premises at Bangalore in July 1963.

In the course of their Joint Pastoral issued in connection with the XXXVIII International Eucharistic Congress, held in Bombay in 1964, the Catholic Bishops of India announced their choice of the College
Project as the Chief Memorial of the Congress. This choice received the warm approval of His Holiness, Pope Paul VI, which was conveyed by him in a special message addressed to His Eminence, Valerian Cardinal Gracias, the then President of the Catholic Bishops’ Conference of India and President of the CBCI Society for Medical Education. His Holiness has also established a scholarship in the College in his own name, to be awarded, each year, to the best all-round student completing the MBBS course.

The Corner Stone of the Project was blessed by His Holiness Pope Paul VI at Bombay during the principal function of the Eucharistic Congress, held on December 3, 1964, at which he officiated. It was laid at the Project site on July 27, 1965 by His Excellency Shri V.V. Giri, the then Governor of Karnataka, and later, President of India. On the completion of the buildings, the College was dedicated to the cause of Medical Education, Research and Care, on September 29, 1968, at a ceremony presided over by the late President of India, His Excellency, Dr. Zakir Hussain.

Prior to the completion of these buildings, the College was located in the premises of St. Mary’s Industrial School and Orphanage, which were made available by His Grace Archbishop Thomas Pothacumury of Bangalore for the teaching of pre-clinical and para-clinical subjects.

St. Martha’s Hospital conducted by the Sisters of the Good Shepherd Congregation was affiliated to the College for Clinical Teaching. The Hospital was extended and suitably equipped for the purpose. This hospital provided a practical example of the spirit of service and sacrifice, which the College strives to make its own and carry beyond itself, to the homes of the patients and the community, both in the urban and in the rural areas. The affiliation of this Hospital to the College has been discontinued from 1983.

Campus: In June 1968, five years after its establishment, the College moved to its permanent campus on a 140 acres site situated in the periphery of the city of Bangalore. During the first phase of construction, the following were completed: the teaching centre (housing the pre-clinical and para-clinical departments and lecture theatres); four blocks of students’ hostel; and some residences for the teaching staff.

St. John’s Medical College Hospital: The construction work of the second phase consisting of a 800-bed hospital, Nurses’ hostel and residences of Staff was started in April 1971. The out-patient departments were opened on December 8, 1975. Thereafter, the in-patient departments were opened gradually. With the third phase of construction completed in 1987, the campus has all the required facilities including a beautiful auditorium, with 1100 seats, from 1996, as a memorial of the Silver Jubilee of this Institution. At present St. John’s Medical College Hospital has 1200 in-patient beds, distributed among the Departments of General Medicine, Medical Oncology, Endocrinology, General Surgery, Surgical Oncology, Obstetrics and Gynaecology, Gynaecologic Oncology, Paediatrics, Paediatric Surgery, Radiology, Psychiatry, Thoracic Surgery, Dental Surgery, Plastic Surgery, Ophthalmology, Dermatology, Venereology and Leprology, Genito-Urinary Surgery, ENT diseases, Nephrology, Orthopaedics, Intensive Care, Cardiac Care, Cardiology, Neurology, Neuro-Surgery, Gastroenterology, Emergency Medicine, Anaesthesiology, Physical Medicine & Rehabilitation, Pain and Palliative Care, Radio-immuno-Assay and Hemodialysis. This is the teaching hospital of our College.

The College of Nursing is situated in the College & Hospital Sector. Started as a School of Nursing on July 1, 1980, it was raised to the status of a College of Nursing on September 25, 1989 and conducts courses in General Nursing & Midwifery, Basic B.Sc., Post Certificate B.Sc. P.B.D. Nsg, and M.Sc. Nursing Courses in Medical Surgery, Community Health, Paediatrics, Obst. and Gynaec and Psychiatry.

In December 1994, the Institution was re-named as ST. JOHN’S NATIONAL ACADEMY OF HEALTH SCIENCES and five Institutes placed under it:

1) St. John’s Medical College;  
2) St. John’s College of Nursing;  
3) St. John’s Institute of Health Management and Para-Medical Studies;  
4) St. John’s Medical College Hospital;  
5) St. John’s Research Institute

N.B: The College provides Hostel Accommodation for the students. The details are available in the Hostel Rules Book.

Note:
(a) A student who discontinues the course after admission but before the commencement of the course, will not be entitled to refund of the fees paid and deposits made to the Institution unless the seat that has fallen vacant due to the discontinuation, is filled up by another candidate. In such a case, an amount equal to 10% of the total fees payable will be deducted as service charges.

(b) If a student discontinues the course during the course period in order to join another subject elsewhere or for any other reason, he/she will have to refund the entire stipend paid by the Institution up to the time of discontinuing and further will pay the fees for the remaining period of the course to the Institution, and shall also forfeit all the deposits and other fees paid to the Institution.

(c) The students are required to pay the prescribed fees once in every six months i.e. in the months of July and January, of each academic year. There will be a total of SIX installments for Degree Course and FOUR installments for Diploma Course.

(d) All the students are instructed to make payments of the entire term fees in one installment to St. John's Medical College Accounts section and no part payment will be accepted. The prescribed fees should be paid within one month of the commencement of each term. Late payments will attract a penalty of Rs. 50/- per day which will have to be paid along with the fee.

(e) Examination fees as prescribed by Rajiv Gandhi University of Health Sciences and other fees, if any, will be notified at the time of admission or at the appropriate time.

(f) All candidates have to pay a caution deposit of Rs. 10,000/-, Library deposit of Rs. 3,000/- and laboratory deposit of Rs. 3,000/- at the time of Admission. These amounts will be refunded, after deduction of dues, if any, when the student leaves the Institution on completion of the Course.

17. P.G. Students will get a stipend of Rs. 25,000/- per month.
18. **SCHOLARSHIP**
A limited number of scholarships are available for deserving candidates.

19. **DUTIES AND RESPONSIBILITIES**
Duties and responsibilities of the P.G. students will be as determined by the Dean from time to time. They will be required to perform such work as may be needed in the legitimate interest of patient care/research etc., as may be decided by the Dean. However, it may be noted that the P.G. Programmes in this Institution are on a Pattern of Residency.

Candidates, giving wrong information in the application form or in the annexures are liable to be expelled from the College at any time during the course of studies and liable also to other disciplinary action by the College.
