I. AIMS AND OBJECTIVES

Note: Considerable care has been taken to make the provisions of this Prospectus precise and comprehensive. The College shall not enter into any correspondence or personal discussions with candidates for admission, or with their parents or guardians, regarding these provisions, or any action, taken by the College at any stage.

INTRODUCTION: The Catholic Church in India has always played an important role in the fields of education, health care, social welfare and development of the community. The Catholic Bishops’ Conference of India (CBCI) in response to a felt need decided to establish a Medical College and Teaching Hospital “to provide for the relief of suffering, to promote and preserve the health of the community and to give an example of enlightened training in dedicated service, which is characteristic of Christian educational and social welfare institutions.” St. John’s Medical College and Hospital and School of Nursing were started in 1963, 1975 and 1980 respectively at Bangalore by the C.B.C.I. Society for Medical Education. The School of Nursing was upgraded to the College of Nursing in 1989. In 1994 all the Institutions were brought under the common name: St. John’s National Academy of Health Sciences.

AIMS: While the Institution is intended primarily for training Catholics and especially dedicated personnel like Religious Sisters who are engaged in large number of hospitals and dispensaries mainly in medically under served and rural areas of our country, it is open, like all other educational institutions under Catholic auspices, to all persons irrespective of religion, caste or community.

The Institution seeks to make a qualitative contribution to health care, medical education and research through the training of medical, paramedical, nursing, health management, community health workers, and other personnel who are dedicated to healing in the spirit of Christ.
The College Hospital is intended to assist in the training and to render service in health care to all people irrespective of religion, caste or community, particularly the underprivileged and disadvantaged.

OBJECTIVES: Under the overall policy of the CBCI Society for Medical Education, the objectives of the Institution are grouped as follows:

1. Excellence in all fields of health care education.
2. Adequate Christian formation of the students.
3. Upholding respect for life, from the moment of conception to its natural end.
4. A genuine feeling of compassion for the patients and their families as persons.
5. A special thrust to Community Health fostering the dimensions of participatory team work.
6. Serving the health needs of medically underserved areas of our country and our medically underprivileged brethren.
7. Acquiring the ability to research, and application of the advances in scientific knowledge to the relevant fields of work.
8. Striving towards promoting holistic health.
9. Acquiring an exemplary steadfastness to principles and moral values so as to witness to a life of honesty and integrity.

Right from its inception St. John’s set before it an ideal of excellence in academic courses as well as service to society, as a result of which it has truly become holistic both in its outlook and in its approach to the problems of community health.

This Institution of Health and Healing envisages also the training and participation of the community - including the rural people and the slum dwellers - in health care in its preventive, promotive and rehabilitative aspects.

The Institution expects its students to uphold the ethical values and principles of morality as interpreted by the Catholic Church. The prospective student has the freedom to choose or reject these, but the choice is made before enrollment.
The Institution prepares students for the role of future leaders, loyal to the highest ideals of the health profession. Today’s Doctors, Nurses and other Health Care Professionals are part of a team who deliver comprehensive health care.

Often they are called upon to be leaders in society helping in all developmental activities. Health is both a means and an end of development improving the quality of life. The students in medical and health care sciences, therefore, should be conscious of social, economic and other factors, the improvement of which will bring about the necessary transformation to make it possible for all in this country and in the world to lead a healthy human existence.

II. HISTORY

The Catholic Church in India had long felt the need of adding a Medical College to the many educational and social welfare institutions through which, over the years, it has served the country. However, the complexities such a venture involved, delayed its active consideration until the proposal was pursued by the Catholic Bishops’ Conference of India. At the request of the C.B.C.I., the late Archbishop of Madras, the Most Rev. Louis Mathias, SDB, prepared and presented a report in 1954, in which he reviewed the total requirement of the project. In 1956, Archbishop Mathias, with the aid of medical and financial experts, submitted a comprehensive scheme to the Conference and in September 1960, the C.B.C.I. took the decision to establish a Medical College, with an attached hospital at Bangalore.

His Holiness Pope John XXIII agreed to the College being called after his Patron, St. John the Baptist, as a mark of his personal interest in the project, and of his approval of its aims and ideals. The College was, accordingly, named “St. John’s Medical College” and opened in temporary premises at Bangalore in July 1963.

In the course of their Joint Pastoral issued in connection with the XXXVIII International Eucharistic Congress, held in Bombay in 1964, the Catholic Bishops of India announced their choice of the College Project as the Chief Memorial of the Congress. This choice received the warm approval
of His Holiness, Pope Paul VI, which was conveyed by him in a special message addressed to His Eminence, Valerian Cardinal Gracias, the then President of the Catholic Bishops’ Conference of India and President of the CBCI Society for Medical Education. His Holiness has also established a scholarship in the College in his own name, to be awarded, each year, to the best all-round student completing the MBBS course.

The Corner Stone of the Project was blessed by His Holiness Pope Paul VI, at Bombay during the principal function of the Eucharistic Congress, held on December 3, 1964, at which he officiated. It was laid at the Project site on July 27, 1965 by His Excellency Shri V.V. Giri, the then Governor of Karnataka, and later, President of India. On the completion of the buildings, the College was dedicated to the cause of Medical Education, Research and Care, on September 29, 1968, at a ceremony presided over by the late President of India, His Excellency, Dr Zakir Hussain.

Prior to the completion of these buildings, the College was located in the premises of St. Mary’s Industrial School and Orphanage, which were made available by His Grace Archbishop Thomas Pothacamury of Bangalore for the teaching of pre-clinical and para-clinical subjects.

St. Martha’s Hospital conducted by the Sisters of the Good Shepherd Congregation was affiliated to the College for Clinical Teaching. The Hospital was extended and suitably equipped for the purpose. This hospital provided a practical example of the spirit of service and sacrifice, which the College strives to make its own and carry beyond itself, to the homes of the patients and the community, both in the urban and in the rural areas. The affiliation of this Hospital to the College has been discontinued from 1983.

**Campus:** In June 1968, five years after its establishment, the College moved to its permanent campus on a 140 acres site situated in the periphery of the city of Bangalore. During the first phase of construction, the following were completed: the teaching centre (housing the pre-clinical and para-clinical departments and lecture theatres); four blocks of students’ hostel; and some residences for the teaching staff.

**St. John’s Medical College Hospital:** The construction work of the second phase consisting of a 800-bed hospital, Nurses’ hostel and residences of Staff was started in April 1971. The out-patient departments were opened
on December 8, 1975. Thereafter, the in-patient departments were opened gradually. With the third phase of construction completed in 1987, the campus has all the required facilities including a beautiful auditorium, with 1100 seats, from 1996, as a memorial of the Silver Jubilee of this Institution. At present St. John’s Medical College Hospital has 1350 in-patient beds, distributed among the Departments of General Medicine, Endocrinology, General Surgery, Surgical Oncology, Obstetric and Gynaecology, Gynaecologic Oncology, Paediatrics, Paediatric Surgery, Radiology, Psychiatry, Thoracic Surgery, Dental Surgery, Plastic Surgery, Ophthalmology, Dermatology, Venerology and Leprology, Genito-Urinary Surgery, ENT, Nephrology, Orthopaedics, Intensive, Cardiac Care, Cardiology, Neurology, Neuro Surgery, Gastroenterology, Emergency Medicine, Anaesthesiology, Physical Medicine & Rehabilitation, Pain and Palliative Care, Pulmonary medicine Neonatology, Transfusion Medicine, Geriatric Medicine, Critical care Medicine. This is the teaching Hospital of our College.

The College of Nursing is situated in the College & Hospital Sector. Started as a School of Nursing on July 1, 1980, it was raised to the status of a College of Nursing on September 25, 1989 and conducts courses in General Nursing & Midwifery, Basic B.Sc., Post Certificate B.Sc. and M.Sc. in Nursing Courses in Medical Surgical Community Health, Paediatrics, Obst. and Gynae. and Psychiatry.

In December 1994, the Institution was re-named as ST. JOHN’S NATIONAL ACADEMY OF HEALTH SCIENCES and five Institutes placed under it:

1) St. John’s Medical College;
2) St. John’s College of Nursing;
3) St. John’s Institute of Health Management and Allied Health Sciences
4) St. John’s Medical College Hospital;
5) St. John’s Research Institute;

In the Subsequent years a number of Super Speciality courses (DM & M.Ch) were introduced in the teaching hospital. As of now, we have the following Super Speciality Departments: Cardiology/ Cardio Thoracic Surgery/Critical Care Medicine/Endocrinology/Gastroenterology/Gynaecologic Oncology/ Medical Oncology/ Neonatology/ Nephrology/Neurology/
Neurosurgery/Paediatric Surgery/ Palliative Medicine/ Plastic Surgery/ Reconstructive Surgery & Burns/Pulmonary Medicine/Radiation Oncology/ Surgical Oncology/Urology.

The Bruhat Bengaluru Mahanagara Palike honoured St. John’s Medical College Hospital with Kempe Gowda Award - 2014 in recognition for its contribution to Health Care given in the Metropolitan City.

In the year 2015, the Times of India honoured St. John’s Medical College & Hospital with best Multi Speciality Hospital Award in India.

The Academy started Post Graduate Course in Hospital Administration (MHA) in the year 2015 with an intake of 30 seats.

The Medical College celebrated its Golden Jubilee during the year 2013-2014 and it was proposed to create necessary infrastructure in Medical College to increase intake of MBBS admissions from 60 seats to 150 seats. A Golden Jubilee Block was constructed attached to the existing Medical College Building with all infrastructures as per the requirements of Medical Council of India.

**N.B:** All the above fees are subject to revision from time to time.
27. Fees other than those set out in paragraph 25 above e.g., for special training services, etc. which will be notified from time to time will also have to be paid.

28. A Student who discontinues the course after admission but before the commencement will not be entitled for refund of the fees already paid and deposits made to the Institution unless the seat that has fallen vacant due to the discontinuation, is filled up by another candidate. In such case, an amount equal to 10% of the total fees payable will be deducted as service charges.

If a student discontinues the course during the course period for any other reason, he/she will have to pay the fees for the remaining period of the course to the Institution, and shall also forfeit all the deposits and other fees paid to the Institution.

29. The students are required to pay the prescribed fees once in every six months i.e. in months of July and January of each academic year. There will be a total of NINE installments during the course of the MBBS studies. In case of failures where attendance of classes and/or clinics is required by the University, additional installments of fee will have to be paid over and above the normal nine installments. In such cases the installments will be worked out as one installments for a period of 6 months or less.

All the students are instructed to make the payments of the entire term fees in one installment in St. John’s Medical College, Accounts section and no part payment will be accepted. The prescribed fee should be paid within one month of the commencement of each team. Late payments will attract a penalty of ₹50/- per day which will have to be paid along with the fee.

30. Examination fees as prescribed by Rajiv Gandhi University of Health Science and other fees if any will be notified at the time of admission or at the appropriate time.

31. All students should claim the refundable deposits within three months of completing their rural bond failing which the deposits would be forfeited by the students.
32. Fees should be paid either in cash, or by draft drawn in favour of ‘St. John’s Medical College, Bangalore’ on a bank at Bangalore, preferably the “Bank of Baroda, St. John’s Medical College Campus Branch, Bangalore”. No Cheque or Draft on a Bank outside Bangalore will be accepted.

33. The fees structure is liable to be changed at any time, bearing in mind the inflation prevalent in the country. Other fees, if any, will be brought to the notice of candidates on selection.

V. HOSTELS

34. (a) The College provides Hostel accommodation for men and women students. Basic furniture is provided but students are expected to bring their own mattresses, pillows, bed linen and other items of personal use.

(b) The cost of any damage to Hostel Property will have to be paid by the Hostelites.

35. Administration/Discipline at the Hostels is governed by the Hostel Rules. These are binding on all students and their infringement may result in disciplinary action.

36. The Hostel fees & other details are available in the Hostel Rules Book.

VI. GENERAL

Note: The regulations included in this section are not exhaustive.

37. Students must be regular and punctual at lectures, demonstrations, seminars, practicals, field work and such other academic exercises. They are required to attend all the allotted working periods in each of the prescribed subjects. If so recommended by the respective Heads of Departments, the Dean may under the Regulations of Rajiv Gandhi University, condone shortage of attendance up to 25 percent caused by illness and such other valid reasons.

38. Students whose conduct, or attendance, or progress is not satisfactory, will not be allowed to appear for the University Examinations, and are also liable to be asked to leave the College.
39. Students must possess the prescribed text-books, laboratory journals, dissecting instruments, medical equipments, etc.

40. A language course is conducted in Kannada; the course is compulsory for all new entrants who do not know the language.

41. Attendance at courses in Human Formation, including Medical Ethics, Rural Orientation Programmes and Behavioural Sciences arranged by the College is compulsory.

42. In case of non-attendance at classes, an application must be presented to the Dean for leave of absence giving the reason.

43. Students, who are required by the Rules of the University to do so, must join the NCC or NSC or the Physical Training Classes.

44. Membership of the recognized Students’ Association of the College is compulsory. No other Association of students in the College, will be permitted unless they have prior approval of the Dean.

45. Catholic students are encouraged to join the All India Catholic Medical Guild of St. Luke (CMG), Bangalore, and All India Catholic University Federation (AICUF).

46. Students must be neat and tidy in their dress, avoiding expensive clothes and exaggerated fashions.

47. Students are advised to provide themselves with light warm clothing, mosquito nets and mattresses.

48. Students must maintain a sense of decorum and discipline inside the College, in its associated Institutions and in public places. “Ragging” is strictly prohibited. Students should refrain from disfiguring walls and furniture and from other objectionable practices.

49. The college vehicles are not available for excursions, examinations and external postings.

50. Students are required to carry their Identity Cards certified up-to-date, on their person at all times.

51. A contributory Students’ Health Service is provided at the College and the Hospital affiliated to it.
52. The College Office must be kept posted with change of address, if any, whether local or permanent.

53. (a) All the students should attend lectures in Medical Ethics regularly and appear for the examinations conducted. Their attendance and performance at the examination will be recorded in the certificates issued by the College.

(b) *Christian Formation:* Catholic Students have to attend Christian Doctrine Classes and the Retreats organised annually. They are urged and encouraged to attend the Eucharistic Celebration as often as possible and to make use of facilities made available to help their all round formation as committed Christian doctors.

54. The Rajiv Gandhi University of Health Sciences, Bangalore, to which our College is affiliated has sent a Circular dated 1st February 1997 on **Ragging.** We would like to bring the important part of the contents of this Circular to the notice of our students:

> “*Ragging is a Cognisable Offence and that any person caught indulging in Ragging shall be liable to imprisonment for a term which may extend to one year, or with fine as stipulated therein.*”

> “*Principals are instructed to inform the Police and take necessary steps to dismiss the Student.*”

**Ragging in any form is prohibited in the campus.** In addition any student indulging in any form of Ragging in the Hostel will be debarred from Hostels of this Institution. He/She will have to make alternate arrangements for accommodation. Names of the students found ragging will be sent to the Rajiv Gandhi University of Health Sciences, Bangalore, for further action.

All day scholars are also reminded that they are not allowed in any of the blocks in the Hostel and all Residents in the Hostel are hereby warned that any act of ragging either in the blocks or in the common rooms or in the dining halls, recreation room, sports grounds, etc., is strictly prohibited.

Any Students/Interns/P.G. Residents/S.H.Os who indulge in any form of Ragging will undergo severe punishment including immediate expulsion from the Hostel etc.
VII. DEGREE OF BACHELOR OF MEDICINE AND SURGERY

(Extract from Regulations)
Effective from the academic year 1996

54.1 TRAINING PERIOD AND TIME DISTRIBUTION

(1) Every student shall undergo a period of certified study extending over 4½ academic years divided into 9 semesters, (i.e. of 6 months each) from the date of commencement of his study for the subjects comprising the medical curriculum to the date of completion of examination and followed by one year compulsory rotating internship. Each semester will consist of approximately 120 teaching days of 8 hours each college working time, including one hour of lunch.

(2) The period of 4½ years is divided into three phases as follows:

(a) Phase-I (two semesters) - consisting of Pre-clinical subjects (Human Anatomy, Physiology including Bio-Physics, Bio-Chemistry and introduction to Community Medicine including Humanities). Besides 60 hours for introduction to Community Medicine including Humanities, rest of the time shall be somewhat equally divided between Anatomy and Physiology plus Biochemistry combined (Physiology 2/3 and Biochemistry 1/3)

(b) Phase-II (3 semesters) - consisting of para-clinical/clinical subjects.

During this phase teaching of para-clinical and clinical subjects shall be done concurrently.

The para-clinical subjects shall consist of Pathology, Pharmacology, Microbiology, Forensic Medicine including Toxicology and part of Community Medicine.

The clinical subjects shall consist of all those detailed below in Phase III.
Out of the time for Para-clinical teaching approximately equal time be allotted to Pathology, Pharmacology, Microbiology and Forensic Medicine and Community Medicine combined (1/3 Forensic Medicine and 2/3 Community Medicine).

(c) **Phase-III** (Continuation of study of clinical subjects for seven semesters after passing Phase-I)

The clinical subjects to be taught during Phase II and III are Medicine and its allied specialities, Surgery and its allied specialities, Obstetrics and Gynaecology and Community Medicine.

Besides clinical posting as per schedule mentioned herewith, rest of teaching hours be divided for didactic lectures, demonstrations, seminars, group discussions, etc. in various subjects.

The Medicine and its allied specialities training will include General Medicine, Paediatrics, Tuberculosis and Chest, Skin and Sexually Transmitted Diseases, Psychiatry, Radio-diagnosis, Infectious diseases etc. The Surgery and its allied specialities training will include General Surgery, Orthopaedic Surgery including Physiotherapy and Rehabilitation, Ophthalmology, Otorhinolaryngology, Anaesthesia, Dentistry, Radiotherapy etc. The Obstetrics and Gynaecology training will include family medicine, family welfare planning etc.

(3) The first two semesters (approximately 240 teaching days) shall be occupied in the Phase I (Pre-clinical) subjects and introduction to a broader understanding of the perspectives of medical education leading to delivery of health care. No student shall be permitted to join the Phase II (Para-clinical/clinical) group of subjects until he /she has passed in all the Phase I (Pre-clinical) subjects for which he will be permitted not more than four chances (actual examination), provided four chances are completed in three years from the date of enrollment.

(4) After passing pre-clinical subjects, 1½ years (3 semesters) shall be devoted to para-clinical subjects.

Phase II will be devoted to para-clinical and clinical subjects, along with clinical postings. During clinical phase (Phase III) pre-clinical and
para-clinical teaching will be integrated into the teaching of clinical subjects where relevant.

(5) Didactic lectures should not exceed one third of the time schedule; two third schedule should include practicals, clinicals or/and group discussions. Learning process should include living experiences, problem oriented approach, case studies and community health care activities.

(6) Universities shall organize admission timings and admission process in such a way that teaching in first semester starts by 1st of August.

(7) Supplementary examination may be conducted within 6 months so that the students who pass can join the main batch and the failed students will have to appear in the subsequent year.

During third to ninth semesters, clinical postings of three hours duration daily as specified in the Table below is suggested for various departments, after Introductory Course in Clinical Methods in Medicine and Surgery of two weeks each for the whole class.

54.2 EXAMINATION REGULATIONS

Essentials for qualifying to appear in professional examinations.

The performance in essential components of training is to be assessed, based on:

54.3 ATTENDANCE

Every candidate should have attendance not less than 75% of the total classes conducted in theory, practical and clinical jointly in each calendar year calculated from the date of commencement of the terms to the last working day as notified by the University in each of the subjects prescribed to be eligible to appear for the university examination (vide Medical Council of India Notification on Graduate Medical Education (Amendment) Regulations 2003, published in the Gazette of India Part III, Section 4, Extraordinary issued on 15th October 2003).

A candidate lacking in the prescribed attendance and progress in any subject(s) in theory or practical/clinical in the first appearance will not be permitted to appear for the examination in that subject(s).

54.4 INTERNAL ASSESSMENT

(i) It shall be based on day-to-day assessment (see Note), evaluation of student assignment, preparation for seminar, clinical case presentation etc;

(ii) Regular periodical examinations shall be conducted throughout the course. The question of number of examinations is left to the institution;

(iii) Day-to-day records should be given importance during internal assessment;
(iv) Weightage for the internal assessment shall be 20% of the total marks in each subject;

(v) Student must secure at least 50% marks of the total marks fixed for internal assessment in a particular subject in order to be eligible to appear in final university examination of that subject.

Note:
Internal assessment shall relate to different ways in which students’ participation in learning process during semesters is evaluated. Some examples are as follows:

(i) Preparation of subject for students seminar.

(ii) Preparation of a clinical case for discussion.

(iii) Clinical case study/problem solving exercise.

(iv) Participation in project for health care in the community (planning stage to evaluation).

(v) Proficiency in carrying out a practical or a skill in small research project.

(vi) Multiple choice questions (MCQ) test after completion of a system/teaching.

Each item tested shall be objectively assessed and recorded. Some of the items can be assigned as Home work/Vacation work.

54.5 UNIVERSITY EXAMINATIONS

Theory papers will be prepared by the examiners as prescribed. Nature of questions will be short answer type/objective type and marks for each part indicated separately.

Practicals/clinicals will be conducted in the laboratories or hospital wards. Objective will be to assess proficiency in skills, conduct of experiment, interpretation of data and logical conclusion. Clinical cases should preferably include common diseases not esoteric syndromes or rare disorders. Emphasis should be on candidate’s capability in eliciting physical signs and their interpretation.
Viva/oral includes evaluation of management approach and handling of emergencies. Candidate’s skill in interpretation of common investigative data, x-rays, identification of specimens, ECG, etc. also is to be evaluated.

The examinations are to be designed with a view to ascertain whether the candidate has acquired the necessary knowledge, minimum skills along with clear concepts of the fundamentals which are necessary for him to carry out his professional day-to-day work competently. Evaluation will be carried out on an objective basis.

Question papers should preferably be of short structure/objective type. Clinical cases/practicals shall take into account common diseases which the student is likely to come in contact in practice. Rare cases/obscure syndromes, long cases of neurology shall not be put for final examination.

There shall be one main examination in a year and a supplementary to be held not later than 6 months after the publication of its results. University Examinations shall be held as under:

**First Professional** - In the second semester of Phase I training, in the subjects of Anatomy, Physiology and Bio-Chemistry.

**Second Professional** - In the Fifth Semester of Phase II training, in the subjects of Pathology, Microbiology, Pharmacology and Forensic Medicine.

**Third Professional** - Part I - In the Seventh Semester of Phase III, in the subjects of Ophthalmology, Otorhinolaryngology and Community Medicine.

**Third Professional** - Part II - (Final Professional) - At the end of Phase III training in the subjects of Medicine, Surgery, Obstetrics & Gynaecology and Paediatrics.
